

Energy Impact Grants To Airports

December 6, 2017 - The Board of University and School Lands (Land Board) awarded grants to a number of airports in western North Dakota impacted by oil development and activity. These grants will help modernize and improve the facilities for a number of years to come.

Four general aviation airports were awarded six energy impact grants which will complete the granting of funds appropriated by the 2015 Legislative Assembly. The facilities awarded oil and gas impact grants by the Land Board are:

Mohall Municipal Airport	Phase II SRE/Terminal Building	\$ 70,000
	Relocate Fuel System	\$ 30,000
Stanley Municipal Airport	Taxiway Expansion	\$ 170,000
