Subject: ND State Land Dept. Info - Updated information for Land Department's August lease sale

Please note that the "City of Williston" tracts (WIL-154-101-Sec 3,10, and 11) included as potentially available for lease at the Land Department's August 3 sale in Medora will not be among the offerings, as the City has formally accepted a lease proposal on this acreage.

In addition, please visit <http://www.land.nd.gov/minerals/Aug2010SaleList.pdf> for an updated sale list. There have been no changes to lease numbers, legal descriptions, or acreage. The only changes relate to the addition of "No Surface Occupancy" provisions on a number of parcels including river and lakebed acreage. The Excel spreadsheet on our website has also been updated - <http://www.land.nd.gov/minerals/201008MinLeaseSaleP.xls>.

Linda Fisher
Leasing Coordinator
