

Sample Construction Aggregate Prospecting Application

Thank you for using the on-line application process. We attempt to respond to all applications by email within two business days. We will bill for the application fee and note any deficiencies in the information submitted. We will also provide a tracking number (RW000XXXX) that identifies your application and should be used in future correspondence concerning this application. This tracking number can also be used to track the status of the application online. If you have any questions, please call 701-328-2800 or respond to the address listed on this email.

Please remember to send the General Project Map in PDF format (see #14 below).

Application for Prospecting Permit

ND Department of Trust Lands

1. Type of Prospecting Permit: ***Sample*** Construction Aggregate Prospecting
2. Purpose of project: Permission to prospect for gravel on state school trust land.
3. Detailed Description: Prospecting will be via rubber tire backhoe. We are proposing to excavate 5 - 15 test holes. Topsoil is removed to full depth and stockpiled separately of subsoil, aggregate, rock etc. Subsoil and aggregates are prospected to full depth of deposit. GPS coordinates are recorded for each test hole. Each test hole is sampled and photographed. Test hole layers are measured and recorded to the entire depth. The test hole coordinate locations are placed on a map of the prospected area. Each hole is backfilled with the material going back into the hoe as it came out, bottom first. Test holes are compacted prior to topsoil replacement. Topsoil is replaced over exposed test hole. Disturbed area is seeded with native grass which is raked into disturbed area.
4. Proposed exploration date(s): July through October 2012
5. Project: Not applicable
6. Legal Description of School Trust Lands Crossed:
NW4-10-141-76 Burleigh County
7. Project Contact Person: Barney Rubble
BEDROCK PRODUCTS INC.
1960 Hard Rock Rd. Suite 200

fflagstone@brproducts.com

12. Offering for consideration: A payment of \$25 per test hole is required.

13. Comments, questions, or additional information:
Additional test holes may be excavated if a promising deposit is discovered.

14. The application fee will be calculated by the Department of Trust Lands based on the information provided on this form and billed to the email address listed above.

15. Geophysical Exploration Applicants: The applicant for a geophysical exploration permit is also required to provide General Project Map of the entire project showing the proposed exploration on both private and public land with a rough scale of not less than 1/2 inch = 1 mile. The General Project Map must be in PDF format.

The General Project Map can be sent by email to mhumann@nd.gov or mailed to Surface Division Prospecting, ND Department of Trust Lands, PO Box 5523, Bismarck, ND 58506-5523. Survey Plats for all projects should be emailed to mhumann@nd.gov.
